19	RIVERDALE NEIGHBOURHOOD CONNECTIONS (as identified in 10 Year Plan)			Neighbourhood route
20	WYCHWOOD NEIGHBOURHOOD CONNECTIONS (as identified in 10 Year Plan)			Neighbourhood route

\*These streets have road work in the near-term program that cannot be deferred, and will only be possible to bundle with if other changes to the program happen very early. However, it will be possible to undertake standalone work on these routes in subsequent years, so while the bundling opportunity would enhance design options, missing the road work will not preclude a future bikeway.

There are many other road rehabilitation projects not listed that were lower in the priority list from a cycling perspective, and are proceeding without dedicated cycling scope. These state-of-good-repair road projects will still include accessibility improvements in line with AODA requirements.
